Installation & Assembly
Instructions
“Barbara” Model D1029A/DU
and D1030A/DU

1. Glaze frames by matching color coded dots, using glazing vinyl supplied.

2. Mount overhead track in existing opening.*
   Hang sliding frame on overhead track by tilting at a slight angle.

3. Place side jambs to align with the sliding frame.*
   Mark the retractable guide location on the countertop 1/2 inch “in” from the end of the frame.

4. Remove sliding frame.

5. With 5/16 inch drill bit, drill 1 inch deep on locations

6. Mount 1/4 inch bar stock top, bottom, and in jamb positions to support fixed frames.*

7. Mount D812 catch on base as shown.* The locking pin can align with edge of the sliding frame or drill a hole in the frame to accommodate the locking pin. (Optional)
